Maritime Technical Networking Summit

@ GRECOTEL LA RIVIERA

The Maritime Technical Networking Summit is the premium gathering that brings together **Technical, Operational, Chief Technology, Fleet Operations, Energy Performance, Decarbonization, and Procurement Directors/Managers** from leading shipping companies, along with suppliers from the corresponding sectors of the maritime industry.

The Summit features **One-to-One business meetings**, targeted **roundtable discussions**, and valuable networking opportunities that foster relationship-building and the exchange of expertise, with the objective to:

- create a dynamic environment for knowledge sharing, strategic collaboration, and meaningful networking
- connect maritime executives with the broader technology and innovation ecosystem
- enable active engagement among decision makers who shape the strategy for the digital and cyber-secure transition of the maritime industry
