

You're invited: "Builds & Backdoors" – a hands-on maritime cyber attack simulation

CyberOwl, a DNV company, invites you to **Cybersecure at Sea 2026**, a half-day event focused on **E26 audit readiness** with an **interactive maritime cyber attack simulation**, delivered through a board game created by our team at CyberOwl.

📅 **Thursday, 5 Nov | 10:00 AM to 1:15 PM EET**
📍 **Yacht Club of Greece in Piraeus**
👉 **Reserve your seat here.**

No Greek owner has been through an E26 cyber survey yet. So this is not a lessons-learned panel. It picks up from there: once you know what will be checked, who inside the company makes it happen?

The panel brings together **IT, technical and HSQE making E26 happen together**: common language, shared measures of success, relying on experts, and getting involved early so costs don't show up later.

Also joining us is **Panagiotis Bousounis**, Greece Operations Manager at **DNV**, with an **audit primer** session.

Then we run the game. **Barriers, Breaches and Budgets** is back in Athens with the **all-new Builds and Backdoors expansion pack**: new scenarios covering vulnerability management and audit. Your decisions in the early rounds determine what the auditor finds at the end.

By the end of the session, you'll have a clearer picture of **what your E26 audit will actually involve**, where your gaps are likely to be, and what you can do about them now, before the auditor arrives. **Reserve your seat here.**

Guest panellists

Kostas Vlachos
Castor Ships, Chief Technical Operations Officer

Matthew Maheras
Metrostar Management, Chief Information Officer

Dimitris Orfanos
M/Maritime Corp, HSQE & Vetting Manager (DPA/CSO)

Panagiotis Bousounis
DNV, Greece Operations Manager

Programme*

09.45 | Registration and coffee

10.00 | Welcome and Introduction to CyberOwl

10.10 | Panel discussion *'E26/E27 in practice: Deciding and investing when the rule is set but the answers aren't'*

- ***Matthew Maheras**, CISO, **Metrostar***
- ***Kostas Vlachos**, Chief Technical Operations Officer, **Castor Ships***
- ***Dimitris Orfanos**, HSQE & Vetting Manager (DPA/CSO), **M/Maritime***

10.50 | Audit Primer

- ***Panagiotis Bousounis**, Greece Operations Manager, **DNV***

11.05 | Vulnerability Management Across IT and OT: Assessment, remediation and tracking without disrupting operations

- ***Antonio Cassidy**, Director of Services, **CyberOwl***

11.20 | Break

11.35 | Maritime cyber exercise *'Builds and Backdoors'*

13.10 | Wrap-up & closing remarks

13.15 | Followed by food, networking and close

**The conference content outline serves as a guide only and may be subject to changes at the organiser's discretion.*

Register today to save your place

This is a sales-free event, focused on learning, open discussion, and building a strong global support network.

Bringing a colleague? We'd be happy to have them. Simply register them through the form or reply to this email.

Can't attend? You can send a colleague in your place by filling out the registration form or replying to this email.

Questions? Contact the CyberOwl events team at insights@cyberowl.io.

We look forward to seeing next week!

Stay safe and secure,
CyberOwl Events Team
